DETAILED ACTION

1. Applicant's amendment filed on June 21, 2007 has been entered. Claims 1-7, 12-18 and 20-37 are pending.
2. The Office would like to notify the Applicant that there has been a change in the Examiner to conduct the future examination and prosecution processes of the currently pending application.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species:
 - a. Species 1: Fig. 6 associates with Claims 1-7, 12 and 13-18.
 - b. Species 2: Fig. 8 associates with Claims 20-26, 27-34 and 35-37.
4. The Species are independent or distinct because each of the various disclosed Species details specific characteristic of the following:
 - a. A method/ a data processing system/ a machine-accessible medium for booting via a selected bootable image on a remote client on a network, comprising: selecting the bootable image, generating a wake-on-LAN packet and transmitting the wake-on-LAN packet.
 - b. An apparatus/ a method/ a machine-accessible medium for booting via bootable image selected by a remote server on a network, comprising identifying a partition identification associated with the bootable image, storing

the partition identification in memory location, booting via the bootable image as an alternative boot sequence of booting from a default bootable image.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.
6. Applicant is advised that a reply to this requirement must includes an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.411. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02 (a).
8. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
9. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply

does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

10. Should applicant traverse on the ground that the inventions or species are not patentably distinct, Applicant should submit evidence or identify such evidence now or record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

11. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nirav Patel whose telephone number is 571-272-5936. The examiner can normally be reached on 8 am - 4:30 pm (M-F).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim Vu can be reached on 571-272-3859. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
